This report is not intended to replace an annual service. AWS recommend annual servicing to ensure ongoing roadworthiness and safety of the Touring Caravan or Motorhome

The above inspection report relates only to the condition of the Touring Caravan or Motorhome at the time of completion. It should not be regarded as evidence of the condition of the vehicle at any other time. A Motorhome inspection is the habitation unit only and does not cover the chassis, engine or drive gear. If a vehicle is outdoors, weather may also affect the accuracy of the inspection report. Inspectors do not disassemble any components as part of the inspection procedure. The Pre-Owned Pre-Purchase Inspection Report should not be deemed as a valuation or indication of value nor a recommendation to purchase. No guarantee or warranty is offered or implied in consideration of the vehicle's design, compliance with any manufacturer specifications, operation, mechanical condition or safety of any of components parts. Should a subsequent purchase be made you should not regard this certificate as a warranty and the inspector responsible for carrying out the inspection will not be held responsible for faults that may become evident following the inspection. By instructing a workshop to carry out a Pre-Owned Pre-Purchase Inspection the consumer understands the above and accepts this as a reasonable term of engagement of the services provided. The inspection should not be regarded as evidence of the condition at any other time.
